Apply Now <https://goo.gl/54ukRR>

Energy Audit Equipment Specialist

Under direction of RHA's Engineering Director, the Energy Audit Equipment Specialist also known as the Tool Lending Library Specialist assists the San Francisco PG&E Pacific Energy Center (PEC) with day to day operations of the PEC Tool Lending Library (TLL). Duties include working with customers and professionals to provide energy and building measurement tools for energy efficiency, demand reduction and demand response projects in California.

Minimum Qualifications

Two years of college; vocational training and/or two years of relevant experience may be substituted for college education. Valid California Driver's license with acceptable driving record and minimum required level of automobile insurance. Ability to travel to meetings and project sites an average of 20% of the work week. Proficient with Microsoft Office programs and ability to use other technical software.

Successful candidates will possess the following:

- Two years' experience working with building contractors, auditors or commissioning agents who work on energy efficiency, demand reduction and demand response projects or similar work experience
- Experience working with tools/instruments used in commercial/industrial energy efficiency, demand reduction, and demand response projects
- Knowledge of materials, methods, and the tools/instruments involved in the construction or repair of houses, buildings or other structures
- Outstanding customer service and ability to work with diverse teams
